Evacuation of containers exceeding 30 days of storage in Jebel Ali

DP World – UAE wishes to inform all port users that due to the growing volumes and stockpile of import containers in Jebel Ali Port, all import containers exceeding 30 days storage will be evacuated from their current location to a long term storage designated area. This evacuation shall consequently free up storage space and reduce yard congestion at Jebel Ali Terminals.

The consignee/importer will be charged for all extra cost involving transportation, loading, offloading or any other additional services required to relocate above said containers.

Henceforth, all importers and their agents are kindly advised to clear their import containers immediately after discharge but not later than 30 days.
