Truck Registration Number (Reminder)

Referring to our Circular reference DPW / 011/ 2008 dated 14th May 2008, it is noticed that still many trucks enter into Jebel Ali and Port Rashid without their registration numbers embossed on top of the driver's cabin.

Due to non visibility of Truck Registration Numbers our equipment operators fail to identify container loading / offloading jobs associated to respective trucks. This results in delaying the delivery / receipt process and sometimes may lead to wrong loading.

Henceforth, with immediate effect it is advised to all Haulier companies to have their Trucks' Registration numbers embossed on top of the driver's cabin in bold letters so that it is clearly visible to the container handling equipment operators.

We look forward for your kind cooperation to overcome the delays and risks of errors that may occur due to non compliance of above said requirement.

For any further clarifications, please feel free to call our Customer Service Department on 04-8040555, fax 8816271 and e-mail customerservice@dpworld.com
