## Speed Limit Enforcement at Jebel Ali Port

Dear Customers,

In the interest of safety, DP World's UAE Region advises all Port Users to adhere to the speed limit of 30km within the port's operational areas (Container Terminal 1, Container Terminal 2 and General Cargo Terminal).

Our Regional Safety and Security department has introduced Gun Radars to monitor traffic speed within port operation areas. The Gun Radars will be used by authorized Security Officers while patrolling the port.

The speed limit enforcement will be followed strictly and violators will be subject to disciplinary action as detailed below:

- First offence:** A written warning letter, which will be filed against the individual and company
- Second offence:** A 7-day ban on the individual from entering all port facilities. The port pass will be retained by Security to enforce this penalty.
- Third offence:** A 30-day ban on the individual from entering all port facilities. The port pass will be retained by Security to enforce this penalty.
- Fourth offence:** A 1-year ban from entering all Port Facilities and cancellation of Port Pass. Thereafter the individual must pass the 'Safety Induction' from DP World Safety department and then re-apply for Port Pass.

We look forward to everyone's support toward a safer work environment and thank all port users for their cooperation.

Should you require any further clarification, please feel free to call:
