Container Cleaning Service

We are pleased to introduce **Container Cleaning Service Facility** at our Empty Yard in Jebel Ali. This facility is initiated exclusively for local empty containers, at the demand of the customer, to provide container cleaning services. The customer can avail this service facility after the terminal gate inspection. (** the location map of the container cleaning and washing area is informative*).

The relevant service charges can be paid at the cleaning and washing area. Standard cleaning services are offered @ AED 65.00 per 20' container and AED 100.00 per 40' container. Other types of service including steam or chemical can also be provided in the same facility and will be charged as per DP World Tariff.

We hope you find this initiative valuable and we look forward to facilitating your business.

Should you require any further clarification, please feel free to contact Customer Service:
