ALL SHIPPING LINES, AGENTS, HAULIERS, TRADERS AND PORT USERS

REF: DPW/NA/24/10/2007

REQUIREMENT OF ONWARD CARRIER DETAILS FOR ALL EXPORT & TRANSHIPMENT CONTAINERS

Further to our earlier circular DPA/NA/06/03/2006, all Shipping Lines and Agents are requested to provide below mentioned information for all Export containers prior to arrival at Gate and for Transshipment Containers at least 8 hours prior vessel arrival, which is our current practice for vessel cut off.

- **Onward Carrier –Rotation Number**
- **Next Port of Discharge and Destination (While submitting discharge EDI for T/S, Next port of discharge should be entered in the “Destination field”.**
- **Gross weight of containers inclusive cargo**

Above information is essential for efficient & effective yard planning.

Discharge / Load EDI format has already been modified to capture Onward Carrier “Rotation Number” for T/S containers. Hence, kindly enter precise Rotation number instead of Vessel Name and voyage number to avoid discrepancies caused due to mismatch in Voyage numbers.

Note: - In case of Non compliance of above requirements, following charges will apply as per Tariff Items 321.9 and 321.10 effective 1st of December 2007:

- A) Due to non availability of Onward Carrier information, container will require additional shifting, hence Dhs. 60/- per container will be charged to respective line.
- B) Due to Change in Onward Carrier, container will require additional shifting, hence Dhs. 60/- per container will be charged to respective line.
- C) Transfer of the full list from one Rotation to another Rotation would warrant a charge of Dhs 60/- per list. if part list transferred to another rotation number then the charge would be Dhs 60/- per container.

We look forward to your understanding and kind support in providing us the desired data on time in order to avoid unproductive moves in the yards.
